MAIN OFFICE AND PLANT AT SIOUX CITY, IOWA

Growing Stations—Millington, Mich., St. Anthony, Idaho; Silisia, Mont.

To the Trade

We are pleased to submit the following prices, which, when the qualities and germinating powers and the great care taken in growing and caring for are considered, will be found as low as such high quality seed can be offered. It has never been our policy to compete with low grade seeds, or seeds grown by inexperienced persons. Our seeds have a reputation to maintain. There are many seeds thrown upon the market at low prices that have not. We especially warn all dealers who wish to furnish their trade with only the best to select their seeds with great care.

CHEAP SEEDS—DEAR AS A GIFT

Some merchants make a special "run" on Bulk Garden Seeds, and buy in large quantities. If dealers who buy in large lots will submit us a list, giving amount of each variety used, we will quote them anything special we have to offer on large orders.

FILL IN OR SUPPLEMENTARY ORDERS

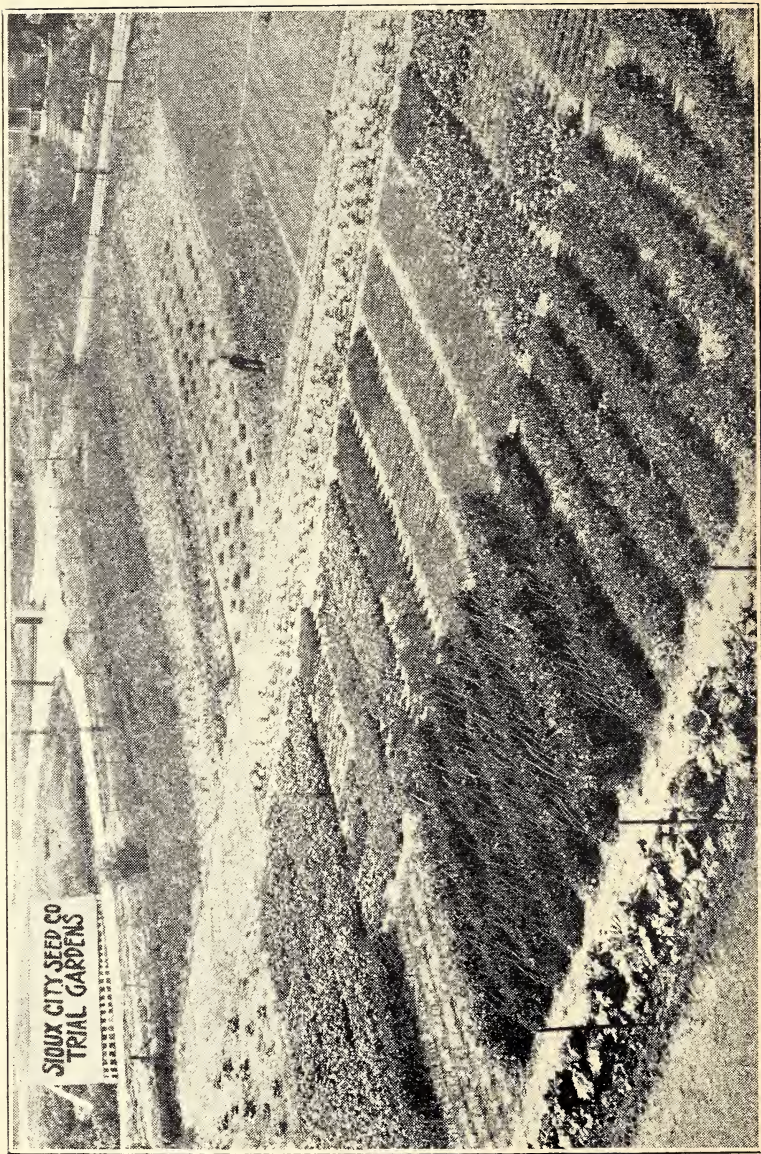

Merchants will find themselves running short of staple varieties during the selling season and will do well to order in advance to avoid loss of sale. All mail orders have immediate attention and all orders are shipped same day as received. It pays to keep your stock complete.

NON-WARRANTY

We sell no seeds with warranty, expressed or implied, in any respect, and will not be in any way responsible for the crop. If the purchaser does not accept these seeds on these terms they must be returned at once.

Complete Trials Are Made Testing Purity and Truthness of Type

TERMS OF SALE

Credit—Orders from unknown correspondents must be accompanied by remittance or satisfactory reference.

Grass and Field Seeds, Onion Sets and Poultry Foods are invariably Net Cash.

Garden Seeds—Net 60 days. We allow a discount of 2 per cent for all bills paid in 10 days from date of invoice. This discount applies to garden seeds only.

All Shipments made in good order and receipts taken, after which our responsibility ceases, although if any shipments do not reach customers promptly we should be immediately notified, as we can often trace and hasten the delivery of the same.

Bags will be charged as follows: 2 bushels 35c; half bushel 10c; quarter bushel 5c.

Remitted for—All bills must be remitted for promptly when due, either by Draft or Express Money Order. Make personal checks payable with exchange. If we are obliged to make draft, which we do on date named on invoice, exchange and collection charges must be paid by the party on whom we draw.

Box Seeds—We have, since commencing business, sold seeds in papers, and we this season are putting up four handsome and finely assorted boxes, full description and contents of which will be found on page 32.

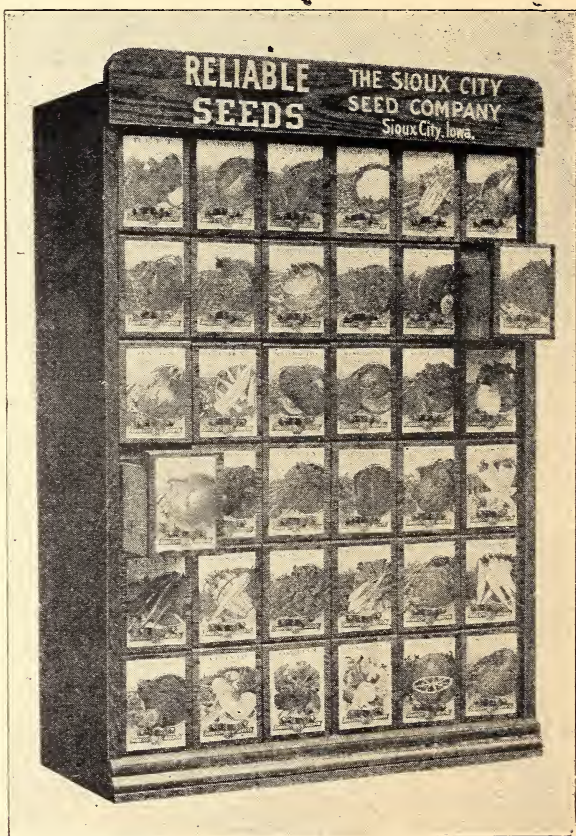

Mailing Seeds—When customers order small quantities of seeds they can be sent by parcel post. Postage will be charged on the invoice.

Freight Equalized—There are many merchants east and south who would like to handle our superior Garden Seeds. To all such we will equalize **Freight Rates** with your nearest purchasing point.

We supply a reasonable number of **Seed Catalogs for merchants free**. Place for the merchant's name and address appears on these catalogs.

SEED CASES

Dealers who handle Bulk Garden Seeds frequently ask us for seed cases. We have a nice case—SOLID OAK, steel back, galvanized iron drawers that never stick, MOUSE PROOF, RAT PROOF, MOTH PROOF. When the seed season is over you can set the case anywhere out of the way and seeds are safe. Keeps seeds clean and sweet. Prevents leakage and mixing of varieties.

Size: 36 drawers. Price \$20.00 F. O. B. Sioux City.
Other sizes quoted on request.

SWEET CORN

CAUTION—Sweet Corn in bulk, even after being thoroughly cured, will often gather moisture and spoil, particularly if it has been exposed to a low temperature. To prevent this it should be taken out of the bags as soon as received and spread in a dry place.

DON'T PLANT SWEET CORN DEEP—Sweet Corn should not be planted over an inch deep; most people plant two or three inches deep—most sure to rot. Also do not plant too early. Not as early as field corn.

Golden Sunshine

GOLDEN SUNSHINE—A new variety introduced by Dr. Yeager of the North Dakota Experiment Station has proved a great boon to market gardeners. It is fully a week to ten days earlier than Golden Bantam. Golden Sunshine also remains succulent longer than Golden Bantam. Ears are same size as Bantam but have twelve rows instead of eight and is of good color and quality. Dealers will do well to stock this variety for their gardener trade.

	Per Lb.	100 Lbs.

HOW TO HANDLE PLANTS ON ARRIVAL

If it is necessary to keep plants for a few days after being received the best method is to take them out of the crate and spread out in a cool, dry place. They will keep for weeks in this manner. DO NOT, under any condition, wet plants before planting. The fact that plants are dry and tops yellow will not injure their growth in the least.

If it should become necessary to keep plants for several weeks and have them green, the best way is to make a shallow furrow with a hoe, or otherwise, and place the onion plants in the furrow, just as they are in the bunches, covering the bulb part with soil. This is the same as planting, and watering will help them.

	1 crate	5 crates
White Crystal Wax-----	\$4.50	\$4.25
White or Yellow Bermuda-----	3.90	3.60

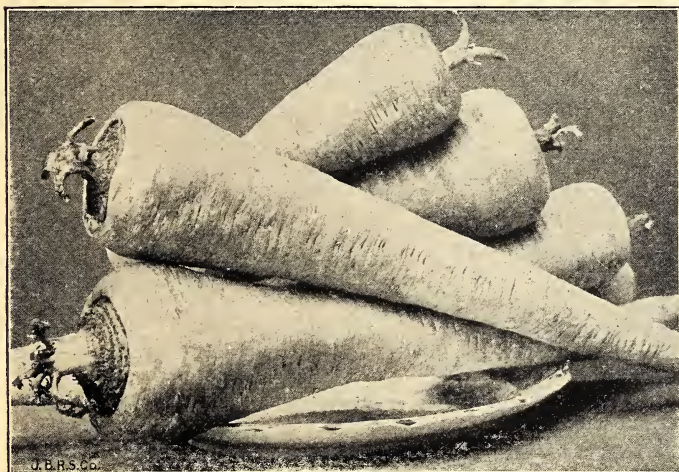

F. O. B. Texas point.

Shipping weight about 30 pounds per crate.

ONION SETS

Why Successful Merchants Prefer to Buy Package Seeds Outright

For 45 years we have sold seeds outright successfully, the popularity being evidenced by our continually increased demand. Advantages of our plan are many.

LARGER, FULLER PACKAGES—Our packets of seeds contain as much seeds as those sent out by any Seedsmen, and more than the contents of packets from many seed houses.

HANDSOME LITHOGRAPHED PACKAGES—Our packets are lithographed in eight colors, and are handsome and accurate.

FRESH NEW CROP SEED—Our packets are put up same year as issued and always contain fresh new crop seed. The Sioux City Seed Company does not send seeds out on commission, thus has no old packets to send out year after year until sold, as is the case with commission seed packets.

VARIETIES SUITED TO YOUR TRADE—In buying Sioux City Seeds the merchant selects the varieties that he sells in his particular locality and the number of packets he thinks he can use of each kind. No unsaleable stock, and this personal selection enables him to sell out nearly his entire purchase of seeds, but in commission boxes all are of same ridged assortment, whether suited to the locality or not. Our salesmen study the needs of each locality and are competent to sell you those varieties most saleable in your territory.

BY SELECTING YOUR OWN BOX, ONE LINE IS SUFFICIENT—Some merchants carry from three to six different seed houses' seeds on commission, and a customer wanting, perhaps, two packets of seed will look in each box and spend 25 cents' worth of a clerk's time selecting 10 cents' worth of seed, but if the merchant handles but one brand, it will require but a minute or two to make the sale.

BIGGER PROFITS—If you are handling Commission Garden seeds, this should interest you, and for the reason that there is a better plan, and one that will make you more money. If you handle commission seeds you can get only 40 per cent, the seedsman 60 per cent. By our plan you get 70 per cent, and we only 30 per cent, a saving to you of 30 per cent.

YOU CAN'T LOSE—ABSOLUTE PROTECTION—Dated packages. WE put on the back of the package a plain date that gives the year to which its vitality expires. We positively burn or destroy at the store all package seeds whose vitality has expired. When you sell our seeds you sell only seeds that will grow.

PACKAGE SEEDS

Counter Display

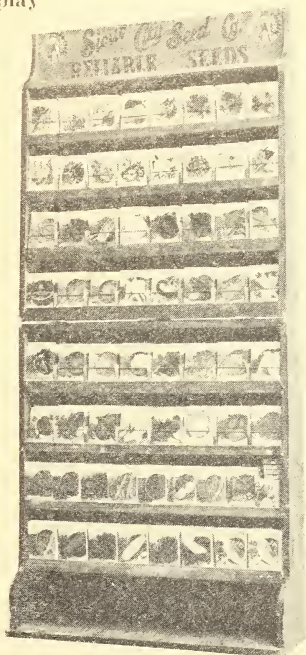

Package seed must be well displayed and they will sell themselves. We can furnish you a case to fit your needs which is both attractive and convenient.

How to Sort Up Boxes

We print a summary of the contents of four regular boxes we put up. If you do not care to sort up your own box you can select the size box you want and we will send you a box made up to suit your latitude.

But we advise you to select the size box you want and then change the contents if they do not suit you. You know what you want better than we do. Select your own varieties.

We recommend that you use only the 5c flat papers and leave out the corn, beans, peas and turnip seed in the larger sized packets, and take these four kinds of seed in bulk. You will find it much more satisfactory to your trade.

Floor Display

Seed cases loaned without charge.

THIS IS OUR CONTRACT

These seeds are sold outright—not consigned; but in order that dealers may not sell seeds too old to germinate, or be at the loss of destroying them, we agree to mark all papers the date of which their vitality expires, and on that date so marked, to replace an equal number of papers for the number destroyed, free of charge. All seeds must be destroyed by our agent at time of his annual visit, or the purchaser can destroy all perishable papers and send us a statement of the number destroyed. The full amount of bill is due 60 days from date of invoice.

All papers are marked with a single figure on the back showing the year the vitality expires, and our agents when visiting you will carefully look over your boxes and destroy all that are dated for that year, so that there is no loss to the dealer, and he has the satisfaction of knowing that he is selling fresh seeds. All our seeds are packed in handsome lithographed bags, and present a very tasty appearance. Boxes are decorated with a beautiful lithographed label, and, altogether, we think we can truly say that our seeds are put up in the most attractive manner of any sent out. At the low price which we offer them we feel that all live merchants will prefer to handle our seeds to the commission goods.

PLANET JR. HILL AND DRILL SEEDER

No. 25 Planet Jr. Combined Hill and Drill Seeder, Double and Single Wheel Hoe, Cultivator and Plow

Holds $2\frac{1}{2}$ quarts. Weight complete, 61 pounds. It combines in a most practical way the Planet Jr. No. 4 Drill and No. 12 Double and Single Wheel Hoes. Equipment—One pair of 6-inch hoes, four cultivator teeth, one pair plows (all oil tempered); two leaf guards, one marker. Price \$21.50. Dealer's discount 15 per cent.

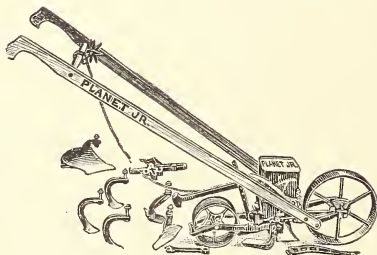

No. 25 Combined Seeder, Double and Single Wheel Hoe is valuable for gardeners who have enough acreage for a double-wheel hoe to be used, and yet prefer not to buy seeders and wheel hoes separately; also for onion growers and for the large family garden where both a single and double-wheel hoe can be used to advantage. The hopper holds four pounds of onion seed.

As a seeder it is practically the same as the Planet Jr. No. 4; for description see page 4. It sows in drills any thickness or drops in hills 4, 6, 8, 12 or 24 inches apart; has the same feed, hill-dropping mechanism and automatic device for stopping the feed, and also a capital seed index.

It is thoroughly substantial and accurate in planting all kinds of garden seeds. Its simplicity, both as a seeder and as a wheel hoe, makes the combination thoroughly satisfactory.

NO. 4 PLANET JR.

No. 4 Planet Jr. Combined Hill and Drill Seeder, Wheel Hoe, Cultivator and Plow

Holds $2\frac{1}{2}$ quarts. Steel driving wheel. Weight complete, 50 pounds. Equipment—one pair of 6-inch hoes, three cultivator teeth, one garden plow (all oil tempered); one leaf guard, one marker.

No. 4D as a Seeder Only. Weight 40 pounds.

Price, \$14.25. Dealer's discount, 10 per cent.

The No. 4 Seeder is a special favorite; there are doubtless more of them in use in the world than any other seeder made. Gardeners and farmers having only a family garden who fear that they haven't quite enough work for a drill to do, will nevertheless find this combined tool will quickly pay for itself in labor-saving and increased crops. With it one can do almost all the hoeing and general work in the garden, for it combines in one machine: A capital hill-dropping seeder, a continuous row seeder, an admirable single-wheel hoe, a splendid single wheel cultivator, an excellent furrower, a rapid and efficient wheel garden plow.

BAYER DUST

for Corn

Here is a fast-moving item that you can sell a lot of this spring.

BAYER DUST is manufactured by The Bayer Company, Rensselaer, N. Y.. It will be backed heavily with advertising this season.

Last season, the demand for **BAYER DUST** was so great that many dealers could not get enough to supply all their customers.

This season, the demand should be even greater. Don't lose any sales by placing your order too late in the season. Anticipate your needs and place your order early.

BAYER DUST costs less than 5c an acre. It permits earlier planting; tends to reduce seed decay, increases germination, prevent seedling blight, root and stalk rots, and increase the yield.

PRICES:

4-oz. (.50)\$ 4.00	per doz.
1-lb. (1.75) 14.00	per doz.
5-lb. (8.00) 64.00	per doz.

DIPDUST

for Potatoes and Vegetables

Here is another item manufactured by The Bayer Company, Rensselaer, N. Y., that has promise of big sales.

DIPDUST is an instantaneous dip treatment for potatoes. Potatoes are simply dipped in—then out, already to plant. Saves time and labor over old-fashioned method of treating potatoes—and is very effective. 1 lb. of **DIPDUST** treats 15 bushels of potatoes.

DIPDUST is also used as a dust treatment for peas, beans and other vegetable seeds and flower seeds. 1 pound treats 6 to 8 bushels of seeds.

DIPDUST will be advertised heavily this season, too. The demand will probably be big. Better place your order early.

PRICES:

4-oz. (.50)\$ 4.00	per doz.
1-lb. (1.75) 14.00	per doz.
5-lb. (8.00) 64.00	per doz.

Semesan Seed Disinfectants

Sell Well

Pay Well

This counter display box is a big sales help.

One of the many descriptive booklets furnished free.

Semesan Seed Disinfectants offer seed buyers protection against an astonishing variety of fungous and bacterial diseases which exist on seeds. Stocking them in anticipation of known demand will pay you well.

The line comprises three products all packed in convenient sized tins beginning at 2 ounces. They are Semesan, for disinfecting flower and vegetable seeds and small grains, the control of "damping-off" of seedlings and Brown Patch of fine lawns and golf greens; Semesan Jr. for field and sweet corn and Semesan Bel for the instantaneous disinfection of white and sweet potatoes.

Manufactured by E. I. du Pont de Nemours & Co., Inc., of Wilmington, Delaware, these antiseptics have been advertised nationally for several years and will be advertised even more extensively this year.

You can make a double profit on every seed sale simply by suggesting Semesan to seed buyers. Not only are window displays and posters furnished free, but also descriptive booklets giving full directions; movie slides, motion picture films, counter display boxes, booklet display racks, a book of testimonials, sales letters and newspaper electros.

Seed treatment with these antiseptics is simple and inexpensive, requiring no special skill or equipment.

Because of favorable discounts we're able to offer you an attractive proposition on this fast moving side line.
